

QUALITY POLICY Rev.0 Ed. 0

The history of Officine Ambrogio Melesi began in 1914; since then the Company has been growing consistently by implementing up-to-date and cutting-edge production technologies, offering progressively more complex products made of innovative materials, and trying to anticipate future trends. Today, Officine Ambrogio Melesi & C. S.r.l. is a leading manufacturer of flanges and related specialty products.

By relying upon high technical standards, Officine Ambrogio Melesi & C. S.r.l. are able to design, produce and guarantee both standard products that comply with national and international regulations, and special pieces customized to meet customers' requirements, all intended for a wide range of sectors.

Management is steadfastly committed to:

- Complying with the customers' discrete requirements
- Complying with statutory and regulatory requirements
- high-quality product standards
- equipment innovation
- high customer satisfaction and all stakeholders
- presence in major world markets in the following sectors: petrochemical, chemical, offshore, energy, oil and gas extraction
- improvement of the quality system management.

To achieve these objectives, the Executive Team of Officine Ambrogio Melesi & C. S.r.l defines in detail indicators for evaluation and measurement, as well as improvement plans, by way of constant management review.

The Executive Team tasks the Quality Manager with ensuring the application and maintenance of the Quality Management System, in accordance with ISO 9001, ISO/TS 29001 and API Q1.

Quality understood as the ability to meet the requirements engendered by the discrete needs and expectations of customers and all stakeholders, must be a shared commitment, which the Executive Team resolutely strives to pursue.

Cortenova, 20 March 2017

Ambrogio Invernizzi, President
